Kigali, Rwanda | +250795594662 | Chrizoc98@gmail.com

EDUCATION

UNIVERSITY OF BRIGHTON September 2019 – July 2023
Bachelor of Science in Computer Science
***Relevant Coursework*:** Data Structures, Algorithms, Machine Learning, Web Development, Mobile App Development

TECHNICAL SKILLS

- *Programming Languages*: Java, Python, C#, JavaScript, PHP, MySQL
- *Development Tools*: Unity, Android Studio, Git, Visual Studio Code
- *Frameworks & Libraries*: scikit-learn, React.js
- *Web Technologies*: HTML5, CSS3, REST APIs

PROJECTS

VR Rubik's cube Game |C# |Unity December 2022 - May 2023
- Built an immersive VR puzzle game with shuffle, timer, sound effects, and dynamic challenges, optimized mechanics for smooth user interaction.

Breast Cancer Detection System | Python, scikit-learn. February 2023 – May 2023
- Engineered SVM and KNN models for tumor classification, achieving 96.49% and 93.86% accuracy: automated preprocessing and scaling pipelines.

Museum Collection Search Engine | JavaScript, PHP, MySQL. September 2022 – January 2023
- Developed a full-stack web app integrating V&A Museum API; implemented caching to cut response time by 40%; designed responsive UI for daily users.

Home Workout Android Application | Java, Android Studio February 2021 – May 2021
- Created a fitness tracking app with tiered difficulty, custom UI components, and integrated video playback for guided exercises.

EXPERIENCE

October 2025 – November 2025
Backend Developer | Java (Spring Boot), PostgreSQL, PostGIS
Beno Holdings
- Developed backend services for a multi-tenant sales and customer management platform.
- designed and implemented 8+ core backend modules including vendors, users, customers, products, orders, sales tracking, and reporting.
- Optimized PostgreSQL/PostGIS schemas and queries for efficient geolocation searches and improved API performance.

Supporter Service Advisor Mar 2025 – Jul 2025
Cancer Research UK
- Handled 30–60+ daily supporter enquiries via phone, email, and live chat, achieving over 95% first-contact resolution.
- Assisted hundreds of participants with event registration and fundraising setup, contributing to over £20m in donations.
- Ensured full GDPR compliance while consistently surpassing service KPIs, including CSAT scores and response time targets.

Software Developer | Python, MySQL, React, JavaScript, HTML, CSS
AmbiFest Ltd September 2024 – December 2024
- Software Developer at AmbiFest Ltd, an events company that creates immersive, themed experiences focused on community and inclusivity. Built a data monitoring and crowd control system for events.
- Developed a web application for operational and reporting needs.

Project Management Intern Summer 2024
Bright Network
- Designed a six-month roadmap for "RunWize" to address user feedback, enhance engagement, and increase Monthly Active Users by 15% and paid subscriptions by 20%.
- Conducted competitor analysis to propose feature enhancements and developed user stories with performance metrics to guide app improvements.
- Outlined a technology stack and presented the roadmap, focusing on delivering value, usability, and feasibility.

Sales Assistant November 2022 – December 2024
FOOTLOCKER
- Achieved 150% of monthly sales targets through data-driven customer engagement strategies
- Trained 5 new team members on sales procedures and customer service protocols

ADDITIONAL INFORMATION

- Languages: English (Fluent), French (Fluent), Swahili (Fluent), Kinyarwanda (Fluent)
- Interests and Hobbies: Football, Basketball, Gaming.
